Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Specification

Applicant is reminded of the proper language and format for an abstract of the disclosure.

The abstract should be in narrative form and generally limited to a single paragraph on a separate sheet within the range of 50 to 150 words. It is important that the abstract not exceed 150 words in length since the space provided for the abstract on the computer tape used by the printer is limited. The form and legal phraseology often used in patent claims, such as "means" and "said," should be avoided. The abstract should describe the disclosure sufficiently to assist readers in deciding whether there is a need for consulting the full patent text for details.

The language should be clear and concise and should not repeat information given in the title. It should avoid using phrases which can be implied, such as, "The disclosure concerns," "The disclosure defined by this invention," "The disclosure describes," etc.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

1. Claim 1 is rejected under 35 U.S.C. 102(e) as being anticipated by Wonak et al. (6,778,824).

Regarding claim 1, Wonak discloses a system 16 capable of communicating with RJ-11 wired equipment 18 and a mobile phone 14, wherein the mobile phone 14 having a first Bluetooth transceiver and wherein the mobile phone 14 being capable of communicating with a wireless service provider 12 (See fig. 1 and col. 3 lines 24-48), the system 16 comprising: a second Bluetooth transceiver 20 being capable of communicating with the first Bluetooth transceiver (See fig. 2 and col. 3 lines 58-64); the system 16 being capable of communicating with the RJ-11 wired equipment 18 so that: calls placed to the mobile phone 14 are capable of being received on the RJ-11 wired equipment 18 (See col. 4 line 53 to col. 5 line 27); and calls placed from the RJ-11 wired equipment 18 are capable of being propagated over the wireless service 12 (See fig. 5 and col. 7 line 19 to col. 8 line 4).

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
